Project Initialization and Planning Phase

Field	Details
Date	25 October 2026
Team ID	N/A (Individual Project)
Project Name	Electric Vehicle Market Performance & Insights
Maximum Marks	3 Marks

This project proposal outlines a solution to address a specific problem. With a clear objective, defined scope, and a concise problem statement, the proposed solution details the approach, key features, and resource requirements, including hardware, software, and personnel.

Project Overview

Category	Details
Objective	To present a clear, 5-minute overview of global EV market performance, covering market scale, regional growth, competition, battery technologies, pricing, charging infrastructure and future outlook.
Scope	Collection and synthesis of EV market figures, design of a 10-slide presentation, preparation of a timed speaking script, and a recorded demo delivery using OBS Studio.
Problem Statement	Market information on EVs is spread across many sources and formats, which makes it hard for audiences to see how battery chemistry, pricing, range and regional growth fit together.
Impact	A single structured presentation helps stakeholders understand the EV market quickly and supports better discussion on investment and supply chain decisions.
Approach	Organise key market figures into 10 topic-based slides, write a script timed to each slide (about 5 minutes total), and rehearse and record the presentation.
Key Features	Structured slide flow (Introduction, Market Scale, Regional Performance, Competition, Manufacturing, Battery Innovation, Pricing, Ecosystem, Roadmap, Conclusion), timed script, and clear summary of key numbers.

Resource Requirements

Resource Type	Description	Specification / Allocation
Hardware: Computing	CPU/GPU specifications, number of cores	Intel Core i5-14450HX (14th Gen) / NVIDIA RTX 3050
Hardware: Memory	RAM specifications	24 GB DDR5
Hardware: Storage	Disk space for slides and recordings	512 GB PCIe Gen 4 SSD
Software: Presentation	Slide creation and presentation tool	Microsoft PowerPoint / PDF export
Software: Recording	Screen and audio recording for demo	OBS Studio
Software: Development Env.	OS and file management	Windows 11

Data: Data Source	Source, size, format	Published global EV market figures and reports, approx. 10–50MB (text and figures)
