Business Question and Visualization Report

Field	Details
Date	25 October 2026
Team ID	N/A (Individual Project)
Project Name	Electric Vehicle Market Performance & Insights
Maximum Marks	5 Marks

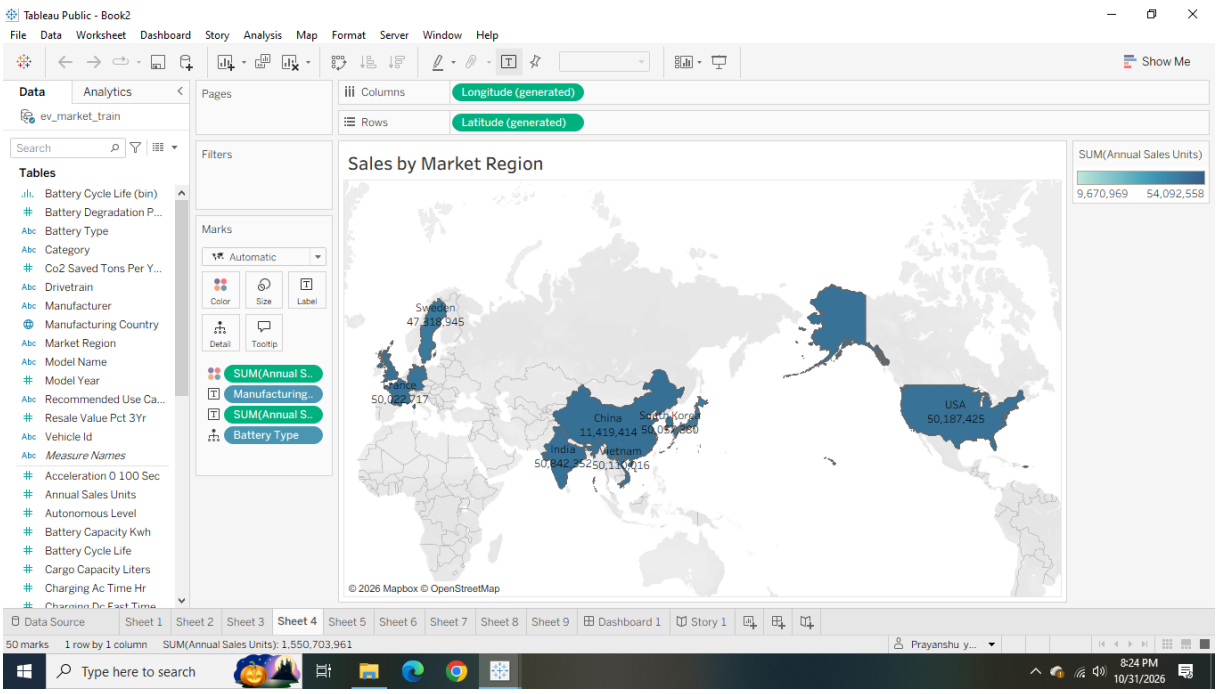

The process involves defining specific business questions to guide the creation of meaningful and actionable visualizations in Tableau. Well-framed questions help in identifying key metrics, selecting relevant data, and building visualisations that provide insights.

1. What is the total global EV sales volume and average price?

Visualization: KPI Scorecard (Text Chart) displaying high-level aggregated metrics.

2. Which global regions have the highest adoption of Electric Vehicles?

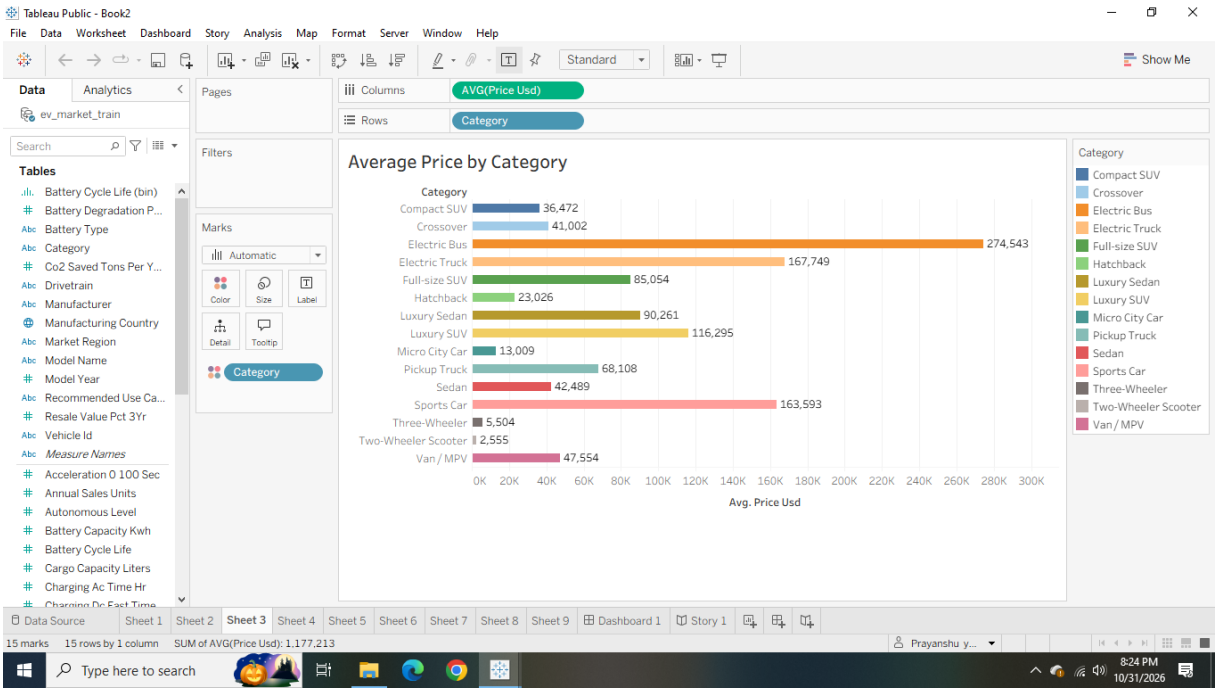

Visualization: Geographic Filled Map showing sales density by region/country.

Sales by Market Region (Tableau worksheet)

3. How does the average EV price vary across different vehicle segments?

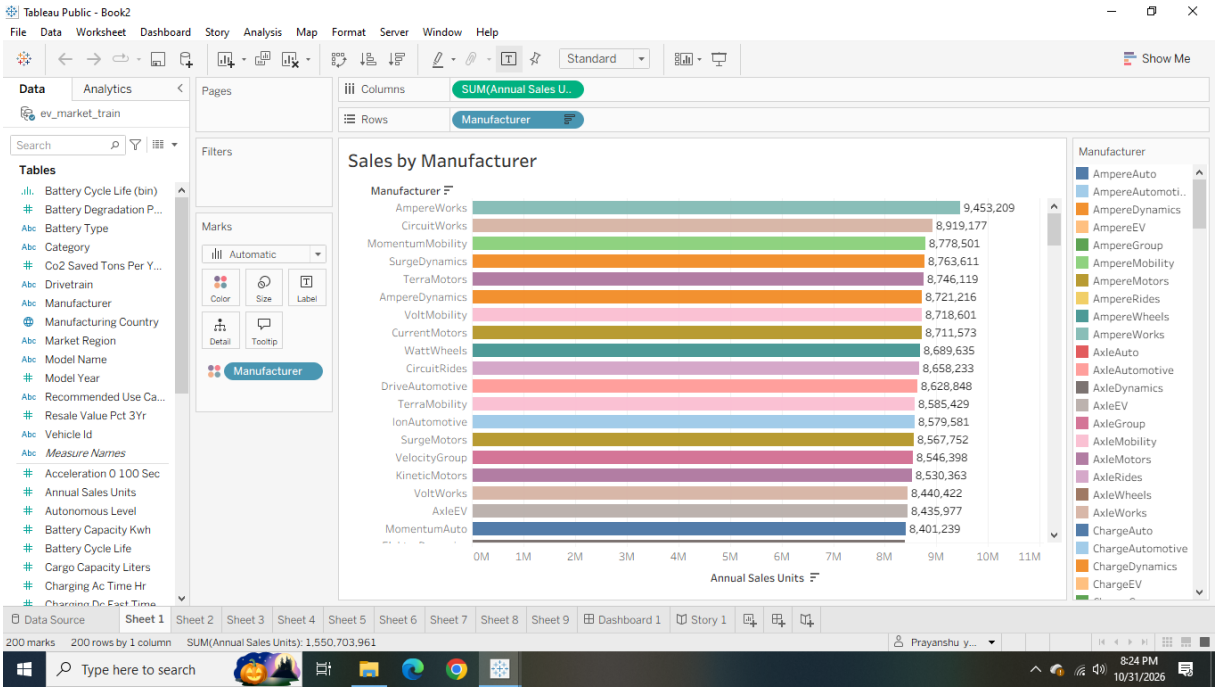

Visualization: Horizontal Bar Chart comparing average price across segments (e.g., SUV, Sedan, Compact).

Average Price by Category (Tableau worksheet)

4. What is the market share distribution among the top Automotive OEMs?

Visualization: Treemap sizing rectangles by total sales volume per OEM.

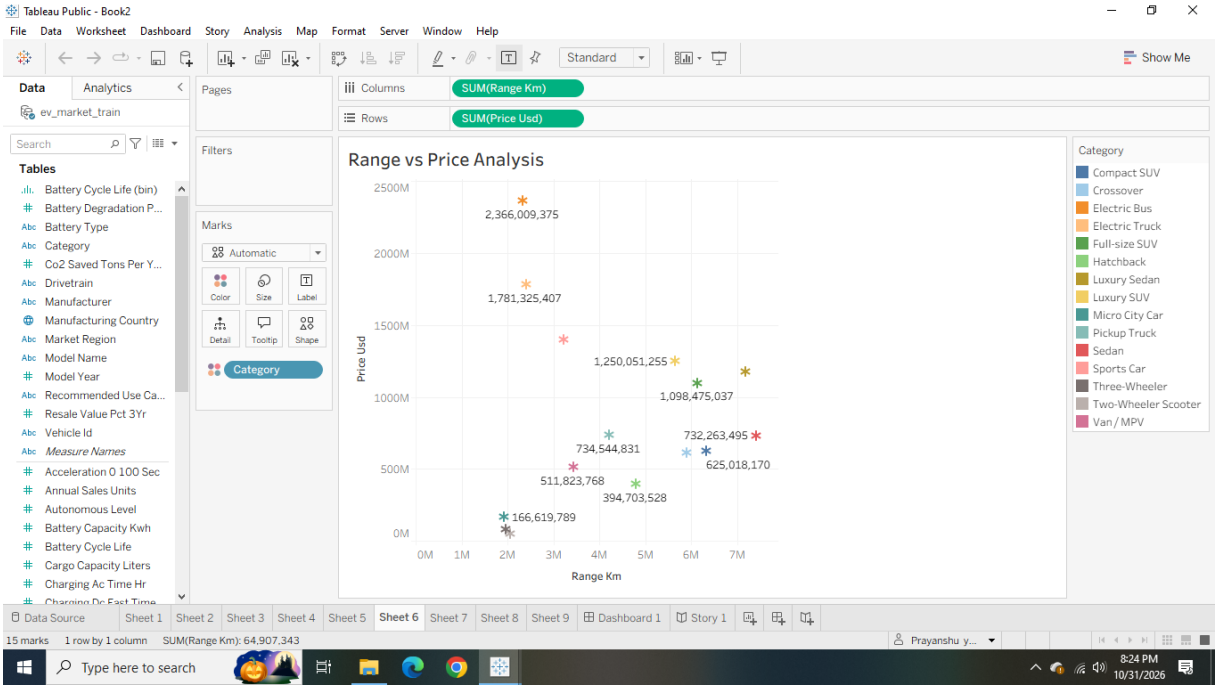

Sales by Manufacturer (Tableau worksheet)

5. How do different battery chemistries (e.g., NMC, LFP) compare in average range efficiency?

Visualization: Side-by-side Bar Chart comparing range (km) by battery type.

6. Is there a direct correlation between EV pricing and vehicle range?

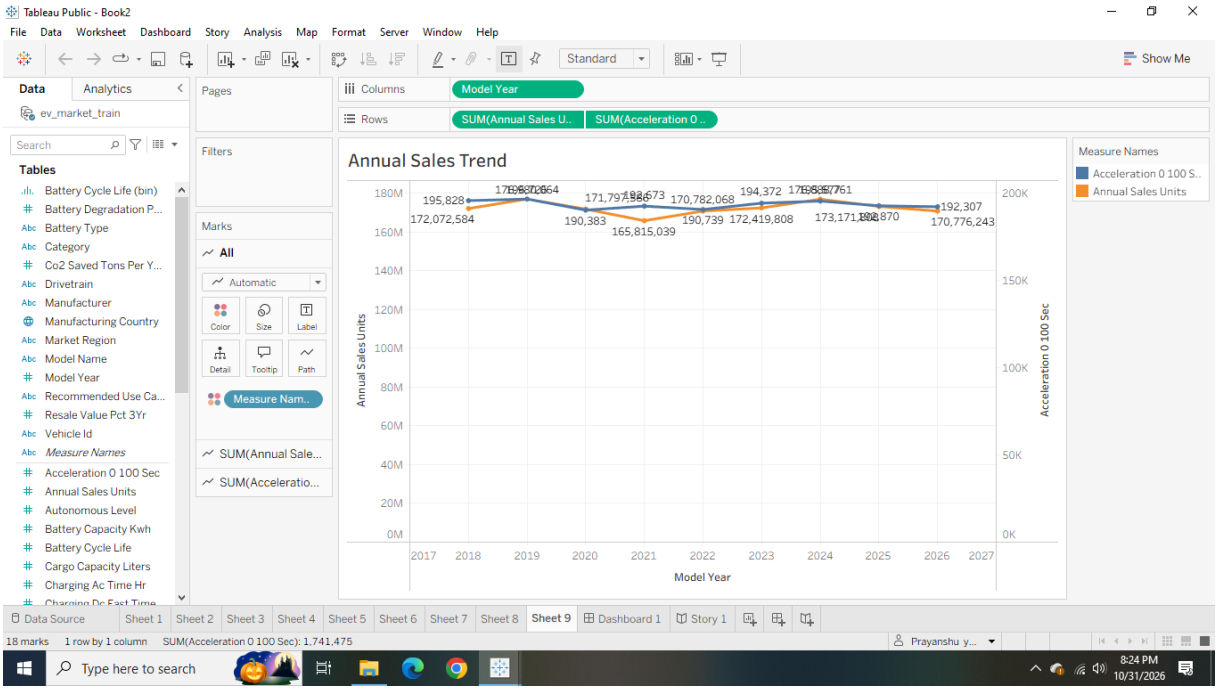

Visualization: Scatter Plot mapping Price (X-axis) against Range (Y-axis) with trend lines.

Range vs Price Analysis (Tableau worksheet)

7. What is the year-over-year growth trend for EV sales globally?

Visualization: Line Chart showing annual sales units by model year.

Annual Sales Trend (Tableau worksheet)

8. Which battery type dominates the top-selling EV models?

Visualization: Pie Chart showing battery chemistry breakdown across the market.

9. What is the distribution of vehicle drivetrains (e.g., AWD, FWD, RWD) among the top-selling EVs?

Visualization: Pie Chart or Donut Chart showing the percentage split of drivetrain configurations across the market.
