Story

Field	Details
Date	26 October 2026
Team ID	N/A (Individual Project)
Project Name	Electric Vehicle Market Performance & Insights
Maximum Marks	5 Marks

By using stories in Tableau, you can communicate complex data in a way that is both interactive and engaging, taking viewers through a logical progression of findings. In Tableau, a Story is a sequence of dashboards, visualizations, and text that presents data insights in a cohesive, narrative-driven way.

Observations

- **Two-Wheeler Scooters Lead in Volume:** The Two-Wheeler Scooter category generates the highest total sales volume of any vehicle category, at 174.6M units.
- **Sodium-Ion Battery Range:** Sodium-Ion shows a marginally higher median range (341km) than NMC and LFP (337–338km). The difference is small, about 1%.
- **Price vs. Range Correlation:** Larger vehicles such as Luxury SUVs offer high range (500km+) at premium price points, while Micro City Cars are affordable but limited to under 150km of range.
- **Battery Chemistry Share (market-wide):** Across the whole market, NMC and LFP hold the largest shares, at 33.80% and 31.99% respectively.
- **Manufacturing Volume:** Manufacturing volume is spread across ten countries, with India, China, and the USA showing the highest totals, each within a narrow band (about 148M to 159M units).

Activity

Publish Story on Tableau Public and paste the public link below:
